## C\_MBT T 18.0 W360 VP 410213

The specialist solution for agricultural and special vehicles

When it comes to testing agricultural and special vehicles up to 18 t axle load, the C\_MBT T 18.0 W360 sets new standards. Two powerful 11 kW motors, an extra-wide roller axle distance and raised rollers ensure that even vehicles with large wheel diameters and sensitive low-pressure tyres can be tested quickly, precisely and safely.

The split design offers maximum flexibility: either installation in a pit or above-ground operation with optional ramps. The standard DC brake makes driving in and out with the powered axle particularly easy and comfortable.

A brake tester tailored to the specific needs of the agricultural sector – delivering efficient processes, maximum reliability and full flexibility.

### PRODUCT DETAILS/ACCESSORIES

#### Description:

Digital roller brake tester for agricultural vehicles and special vehicles up to 18 t axle load with 2 x 11 kW drive motors

Particularly suitable as stand-alone tester in the agricultural sector due to large roller centre distance and raised test rollers

#### Configuration:

- Split design as standard for pit installation or above-floor operation with optional ramps
- Dimensions offer optimum testing opportunities for all agricultural vehicles including trailers
- Very large roller axle distance for comfortable testing of oversized wheel diameters

- Clearly raised test rollers prevent jamming of low-pressure tyres on the test bench frame
- DC-Brake for comfortable vehicle exit with driven axles
- High-quality powder coating: anthracite grey, RAL 7016

#### Scope of delivery:

- Control box with integrated control unit
- Roller set T18.0 W360 with integrated interface module

#### Note:

The use of the C\_MCD universal console (VP 186054) is recommended for free-standing installation of the above-floor test stand
